DYMAX Corporation Identified as One of the Fastest-Growing Companies in the U.S.

Inc. has once again identified DYMAX Corporation as one of the 5000 fastest-growing private companies in the country. The list is the most comprehensive look at the most important segment of the economy – America's independent-minded entrepreneurs. Taken as a whole, these companies represent the backbone of the U.S. economy.

“Our second annual Inc. 5000 continues the most ambitious project in business journalism,” said Inc. 5000 Project Manager Jim Melloan. “The Inc. 5000 gives an unrivalled portrait of young, underreported companies across all industries doing fascinating things with cutting-edge business models, as well as older companies that are still showing impressive growth.”

Andrew G. Bachmann, founder and Chairman of the DYMAX Corporation, grew the company from an invention developed in a basement laboratory to a global supplier of structural adhesives, coatings, encapsulants, and UV

curing systems widely used in the medical, electronic, and aerospace industries. His commitment to providing manufacturers with improved assembly solutions through light-curing adhesives and equipment, led to the development of over 30 patents, including fluorescing adhesives and adhesives that can cure through semi-opaque and UV-inhibited plastics.

Over 25 years later, the products manufactured by DYMAX continue to provide design engineers with tools to dramatically improve manufacturing efficiency and lower their costs. DYMAX, an ISO 9001:2000 certified company, serves the assembly needs of the medical, electronic, optical, military, automotive, metal finishing, and industrial markets worldwide.

The 5000 companies that made the list reported aggregate revenue of \$185 billion and median three-year growth of 147 percent. Most important, the 2008 Inc. 5000 companies were engines of job growth, having created more than 826,033 jobs since those companies were founded. Complete results of the Inc. 5000, including company profiles and a list of the fastest-growing companies that can be sorted by industry and region, can be found at www.inc5000.com.

The 2008 Inc. 5000 list measures revenue growth from 2004 through 2007. To qualify, companies must be U.S.-based, privately held, independent – not subsidiaries or divisions of other companies – as of December 31, 2007, and have had at least \$200,000 in revenue in 2004, and \$2 million in 2007.

DYMAX Corporation is a leading technology-based company specializing in the formulation, manufacture, and service of advanced assembly adhesives, coatings, masking resins, and light curing systems.
