DYMAX Debuts Newly Redesigned Chinese Website

DYMAX Corporation, manufacturer of adhesives and light-curing equipment and headquartered in Torrington, CT, has launched a newly updated website for their China location. For ease of use, the site – <http://www.dymax.com/cn> – has been reconfigured to match the design and style of the corporate website, www.dymax.com. Currently featured are conformal coatings and conveyor systems, products that support the company's key Asian markets.

Upon entering the website, visitors can find the newest product information and events featured in a rotating slideshow on the home page. Visitors to the site will also find more detailed web pages containing pertinent information on each product, downloadable selector guides and technical bulletins, and even some application videos.

The conformal coating section features a selector chart with recommended products as well as their features and applications. Product Data Sheets (PDS) are available for immediate download. The product-specific pages in the conveyor systems section contain detailed equipment diagrams, pictures, helpful charts, and downloadable operations manuals.

Designed with expansion in mind, the site will broaden as DYMAX continues to grow in the coming years.

DYMAX Corporation is a leading technology-based company specializing in the formulation, manufacture, and service of advanced assembly adhesives, coatings, epoxies, masking resins, and light-curing systems.

For more information, contact DYMAX Corp., 318 Industrial Lane, Torrington, CT 06790; Phone: 860-482-1010; Fax: 860-496-0608; Toll Free: 1-877-DYMAX-UV (1-877-396-2988); e-mail: info@dymax.com or visit our website at www.dymax.com.
