DYMAX Corporation Earns Position as One of the Fastest-Growing Companies in the U.S.

DYMAX joins Spirit Airlines, Vizio, and Dunkin' Donuts, among other prominent brands featured on this year's list

Torrington, Connecticut – October 12, 2011.... For the fifth year in a row, DYMAX Corporation has been identified by Inc. magazine as one of the 5,000 fastest-growing private companies in the country. The Inc. 5000 list represents the most comprehensive look at the most important segment of the economy – America's independent-minded entrepreneurs. Taken as a whole, these companies represent the backbone of the U.S. economy. The 2011 Inc. 5000 is ranked according to percentage revenue growth when comparing 2007 to 2010.

"Now, more than ever, we depend on Inc. 500/5000 companies to spur innovation, provide jobs, and drive the economy forward. Growth companies, not large corporations, are where the action is," says Inc. magazine Editor Jane Berentson.

With this accomplishment, DYMAX Corporation joins the rarified company of enterprises who have appeared on the list multiple times, many of which have grown to become national icons.

Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found on <http://www.inc.com>

For additional information, visit www.dymax.com or contact DYMAX Applications Engineering at info@dymax.com or 860-482-1010. DYMAX Corporation develops innovative adhesives, coating, dispensing, and light-curing systems for applications in a wide range of markets. Major markets include aerospace, appliance, automotive, electronics, industrial, medical device, and metal finishing.
